United States Information Agency
Washington, D.C.

Dear Sirs;

In connection with a study I am making, I would appreciate it if you could provide me with a list of those books on the assassinations of John F. Kennedy, Martin Luther King and Robert F. Kennedy which the USIA is making available abroad and/or has reviewed or otherwise drawn attention to. If possible, can you tell me any magazine or newspaper writing that has been so used, to explain to other countries about American assassinations, their investigations, and public reactions.

Thanking you in advance for your efforts, I remain

Sincerely,

Howard Roffman
